

Notes to self

- . Test application to test the waters in QML
- . Creating the qml project in Qt Creator
- . Different tools to run qml :
 - . Qt Creator Project
 - . qmlscene
 - . Qt Creator QML prototype
- . Showing the files that make up the project
 - . The CMakeLists.txt file
 - . The main.cpp file
 - . The main.qml file

Hello World

Notes to self

- Don't show the code in the slides as students will discover that in Qt Creator as we do our work
