

Notes to self

- . Exploring the TextInput Component :
- . Allows user to type a single line of text
- . Handle the editingFinished signal.
- . Show other signals in the docs

TextInput

TextInput

```
Rectangle {
    id : firstNameRectId
    color : "beige"
    Text {
        id : firstNameLabelId
        text : "FirstName :"
    }
}

Rectangle {
    id : firstNameTextRectId
    color : "beige"

    TextInput {
        id : firstNameTextId
        focus: true
        text : "Type in your first name"
        onEditingFinished: {
            console.log("The first name changed to :" + text)
        }
    }
}
```
