

Notes to self

- . Exploring GridView
- . Shows elements in a Grid
- . Show `layoutDirection` and `Flow`
- . Take ref from the docs and the Qt5 course.

GridView

GridView

```
GridView{
    id : mGridViewId
    anchors.fill: parent
    //flow : GridView.FlowTopToBottom
    //layoutDirection: Qt.RightToLeft
    model: modelId
    delegate: Rectangle {
        width: 100
        height: width
        color: mColor
        Text {
            text : mNumber
            anchors.centerIn: parent
            font.pointSize: 20
        }
    }
}
```

The model

```
ListModel {  
    id : modelId  
    ListElement {  
        mNumber: 1  
        mColor: "red"  
    }  
    ListElement {  
        mNumber: 2  
        mColor: "green"  
    }  
    ListElement {...}  
}
```

CMake

```
find_package(Qt6 6.2 COMPONENTS Quick QuickControls2 REQUIRED)
...
target_link_libraries(app2-Button
    PRIVATE Qt6::Quick Qt6::QuickControls2)
```
