

# Notes to self

- . Exploring Range Slider
- . Use the docs and improvise.

# RangeSlider

# RangeSlider

```
RangeSlider{
    //orientation: Qt.Vertical
    from: 1
    to : 100
    first.value: 25
    second.value: 75

    first.onValueChanged: {
        console.log("First value changed to : "+ first.value)
    }
    second.onValueChanged: {
        console.log("Second value changed to :"+ second.value)
    }
}
```

# CMake

```
find_package(Qt6 6.2 COMPONENTS Quick QuickControls2 REQUIRED)
...
target_link_libraries(app2-Button
    PRIVATE Qt6::Quick Qt6::QuickControls2)
```
