# Notes to self

```
Exploring the slider.
. Same thing as slider
. May be set this up as an exercise.
```

Slider

Slider

```qml
Column {
    Slider {
        from : 1; to : 100
        value: 40
        onValueChanged: {
            progressBarId.value = value
        }
    }

    ProgressBar {
        id : progressBarId
        from : 1; to : 100
        value: 40
    }
}
```

CMake

```
find_package(Qt6 6.2 COMPONENTS Quick QuickControls2 REQUIRED)
...
target_link_libraries(app2-Button
    PRIVATE Qt6::Quick Qt6::QuickControls2)
```
